DETAILED ACTION

Response to Amendments

1. Applicant's amendment filed January 26, 2006 has been entered and made of record.
2. Applicant has amended claims 1, 3 and 12. Claims 1-15 are now pending.
3. Applicants remarks have been fully considered and are found persuasive in view of the presented amendment.

Allowable Subject Matter

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant has amended the independent claims 1, 3 and 12 to distinguish more specifically the claimed invention. Applicant's remarks serve to explain the difference between the cited prior art and the claimed invention. In summary, the cited reference to Chen and Williams discloses creating two warped images and depth maps from two different viewpoints and then combining the two warped images to create an interpolated image from a virtual viewpoint between the two initial viewpoints. Chen discloses that each image is warped from one of the initial viewpoints to the other of the initial viewpoint.

The presently claimed invention creates two warp maps from each of the initial viewpoints to a virtual viewpoint and then merging the two images.

The reference to Shum discloses merging two images to create an image of a virtual viewpoint, but does not disclose creating two warp maps to do so.

Therefore neither of the cited references nor any other the found prior art discloses or reasonably suggests the claimed feature of creating two warping maps and two warped images for warping two images to a virtual viewpoint image and then merging the two warped images to create an image from the virtual viewpoint.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
